TUESDAY, NOV. 16, 1875.
NEWS OF THE MORNING.

The skeleton of a man was found under an old adobe wall in this city yesterday. The bones appear to have lain in the ground for twelve or fifteen years.

Ninety-five one-hundredths of an inch of rain fell in this city on Saturday night. At half-past twelve o'clock yesterday afternoon several light shocks of earthquake were felt in this city. The shocks at the Southern Pacific Railroad depot and in the County Clerk's Office were stopped. Only a few persons felt the shock.

The body of one more of the victims of the steamer Pacific has been found. It was that of a woman. On one of her fingers was a ring with the initials "D. B. A." on it.

The earthquake shocks experienced in this city yesterday were felt at the same moment at all the telegraph stations along the railroads in this valley.

A dispatch from Colton, San Bernardino county, reports a severe shock of earthquake at 2:35 p. m. yesterday. The vibrations lasted six seconds.

SENATOR ROACH, of San Francisco, is named in connection with the Presidency pro tem of the Senate. If we had a vote in that body it would be cast for ROACH. It is an honorable position, which he would honor.

TIMES are verging on an unpleasant epoch when a man with sixty wives is sick and the government details a United States marshal to nurse him. This is the case of BRIGHAM YOUNG.

THE buyer of stolen mining stock is the loser. The stock is not negotiable paper and the possession of the certificate is not necessary to hold the shares. So says the Supreme Court.

THE California cotton crop for this year will not exceed 100,000 pounds—less than 25 per cent. of last year's yield. The experiment has satisfied the great majority that while present rates of wages and cost of transportation prevail cotton growing cannot be made remunerative in this State. The time will come when it will be profitable to raise cotton in certain localities on the Pacific Coast, but the day is yet in the future.

SINGER, the lately deceased sewing machine man, was a devout church member and greatly respected for his wealth and other attractive qualities. His will shows that he enjoyed the companionship of two wives and four breast wives and was the reputed father of twenty-eight children, the greater number of whom cannot prove the legitimacy of their birth. There are a great many people who do not expect to meet either BRIGHAM YOUNG or MR. SINGER in heaven.

NOTHING affords more satisfactory evidence of the rapid improvement of the times than the very perceptible increase of coin in our midst. Every branch of trade is brightening business is increasing and the transactions of our banks grow more voluminous day by day. The Farmers & Merchants' Bank of this city is rapidly extending its area of usefulness and we understand the number of its depositors and the amount of its deposits have doubled within the last month. This shows that money is easier and proves the confidence the people feel in the reliability and stability of the Bank.

A San Diego dispatch says DRYDEN, the Indian agent, recently visited the Temecula Indians at their ranches with five hundred blankets, calicos, etc., but the Indians refused to accept any of the presents, their chief being absent they feared some trick was being attempted on them. There is a grim humor in the words "feared some trick." After the dispiriting trick that has been played on this inoffensive tribe we are not surprised that they should grow suspicious and imagine every white man that approached them was seeking to play another trick upon them. They have been robbed of their land. Their homes in which they have lived for generations have been stolen from them and they and their families driven forth without the slightest consideration. No wonder these victims of the white man's rapacity are on the watch for other tricks when the forked tongue of paleface approaches them.

Irrigation Legislation.

Nearly every journal in the State is reminding Legislators of the importance of passing some kind of bill on irrigation at the approaching session. It is altogether probable that every member of the Assembly and every Senator in the State fully recognizes the necessity for taking steps in this direction. Irrigating facilities are the great want of the State; but how to best provide these facilities is the problem to be solved. We have an abundance of water to cover every plain and valley with waving grain. How to economize the water and convey it to the localities in which it is needed is the rule. We doubt the ability of the Legislature to reach a satisfactory solution of the question. We doubt if the attempts of one or of three sessions will present such laws as will be acceptable to the whole people. It is more than doubtful if any general system applying alike to the whole State can ever be perfected.

Legislation on irrigation is a subject as intricate and perplexing as that of railroad freights and fares. What would meet the demands of one locality is not adapted to nor acceptable to another. The first and most important point to be settled is who owns the waters of our lakes and rivers—the State or individuals? After this is determined as it should be, in favor of the State, then we may begin the study of the second section—how to utilize the water and serve it fairly and impartially to those on whose lands it is needed. This Winter the Legislature will be flooded with irrigation bills. There will be a deluge of them, and nine-tenths of them will be as wild and impracticable as their authors are uninformed and inexperienced on the subject on which they are trying to legislate.

Define Your Principles.

Hardly anything in this world is perfect. Men and things are full of errors, and nothing is done that might not have been done better. It is an easy task to point out imperfections, but to suggest correctives is quite another matter. The administration of our governmental affairs under Republican domination has been anything but perfect or satisfactory. The evils of ignorance and the wrongs of premeditated rascality culminate in a load of oppression which the people are not longer willing to carry. They are anxious for a change, but to whom the control shall be given is a matter of concern and solicitude. We can all point out the errors of Republican administration. Democratic journals and speakers have attained a degree of proficiency in the art for which they deserve commendation. But in one essential they are lamentably deficient—they see the evil but do not suggest the remedy. It is true that Democratic administration is urged as the universal panacea for all governmental ills, and the people are not unmindful that it was through an adherence to the true principles of Democracy that the nation grew from infancy to manhood and took its place as the first republic of the world. But what assurance have they that the Democracy of modern times will stand by and enforce the tenets and principles of the Democracy of earlier days? If we look over a platform made up by the Democrats of an Eastern State, we find that it consists for the most part of indictments of the Republican party. True bills all, and sustained by mountains of evidence. But something more is wanted to win the confidence of the people. It is well to urge that the party in power has forfeited its right to further employment by many signs of omission and commission, but it will be better for the party applying for the place to offer some assurance that the nation will be benefited by the change. In this the Democracy is weak, and the manifestation of this weakness has caused the people to distrust its integrity of purpose and honesty of intention. The Democrats cannot reasonably demand supremacy without pledge or promise. If they would have control of the government, they must give some assurance that they will do better than has the party now in possession. They must define their principles and stand by them as staunchly after the election as before it. By no other means can they hope to win and retain the confidence of the people.

WITH the exception of San Francisco, Southern California is the only part of the State that shows a marked increase in population. Yet immigrants have been pouring into the State for the last six months at a rate not equalled since the rush for the gold mines. Our population is increasing by thousands and will continue to increase at the same rate or more rapidly for years to come. The immigration is "turned Westward" and the eyes of those who are fleeing from cold weather and grasshoppers, are fixed on the sunny valleys of Southern California. They will come, and finding as they will that this is the most desirable part of the State in which to locate their friends, and their friends' friends will follow until our valleys will be filled with a thrifty and industrious people who will make the now uncultivated millions of acres yield productive crops.

Skeleton Found.

Late yesterday afternoon the workmen engaged in excavating in the rear of the St. Charles Hotel, unearthed a skeleton in a fair state of preservation. The bones were carried to the office of Dr. Richardson, coroner, and the result of his investigations proved almost conclusively that it was of a male of mature years, a white man of medium height, and the body had been buried at least twelve years. The skull was quite perfect, the remaining teeth, including a wisdom tooth of the hands and feet are missing. Nails of various sizes were visible in the bones, and were no doubt given any clue to the history of the skeleton. Various theories are given to account for the bones. An old settler says that it was one of the Mexicans killed by Fremont during his siege, but we never heard of Fremont killing anything but mules. Another says it is the skeleton of a prisoner who had been confined in a Mexican military prison during the Fremont and Stockton siege of this town. Still others think that a murder has been committed and the victim buried near the adobe wall where the bones were found.

Jno. W. Taylor, the lawyer of Newark, N. J., who was appointed by Judge Moore, of Brooklyn, as commissioner of the case of alleged perjury of Joseph Loader, to take the testimony of Mrs. Richards, has refused to act, and a new appointment will be made.

[SPECIAL TO THE HERALD.]

PACIFIC COAST.

For Los Angeles.

CALIENTE, Nov. 15.—The following passengers for Los Angeles left on the Telegraph Stage Line to-day: D. A. Joy, A. T. Smith, M. J. Noonan and wife, J. W. Bedbury and J. B. Jones.

SAN FRANCISCO, November 15th.—Wm. Davis, recently convicted of manslaughter for killing Jabez Roberts near the corner of Pacific and Battery streets, last May, was brought before the Fifteenth District Court this morning for sentence. A motion for a new trial was denied, and Davis was sentenced to ten years in the Penitentiary.

The Bay District Association track, on which the race for the \$30,000 purse offered by the Pacific Jockey Club was to have been run last Saturday had the weather permitted, is in such a bad condition that it has been found necessary to remove the horses elsewhere to keep them in training. This morning Springfield, Wild Idyl, Ruthenford, Grimstead, Katie Pease and Revenue, Jr., were taken to the Ocean View Riding and Driving Park for nearly known as the Ocean House Race Course, which, having a sandy bottom, is in excellent condition for working. The Bay District Track is at present covered with water, and it is considered scarcely possible, even were it to clear up at once and continue fair during the remainder of the week, to get it in condition for racing by next Saturday. The Jockey Club have not yet decided on what day the great race shall come off, but there is some talk at present of postponing the race to the 22nd inst. The continuous rain storm, to postpone it until Thanksgiving Day. The horses are reported in excellent working condition.

On Saturday last the twelve-year-old son of Manuel Terlan, of Sausalito, shouldered his fowling piece and went out in search of wild ducks. The little fellow was away so long that his parents became anxious concerning his safety and search was made for him. It was ascertained that he had been last seen in the mud flat beyond the railroad bridge, in which way the search was principally confined. It was not long before the missing boy was found dead, having been swallowed up in the treacherous mud, with nothing but the upper part of his head remaining above the surface. In the anxiety to reach his garret he had fallen out in the flat too far, and his struggles to extricate himself from the deadly embrace of the soft mud hastened his death.

Late bullion shipments embrace \$2,267 from the Arizona mine on the 13th and \$28,000 from the Consolidated Virginia mine on the 15th. This is supposed to be the largest shipment for the fiscal month from that mine, and the total is \$1,818,000. The first shipment in the current fiscal month was made on the 13th and amounts to \$46,800 from the Jefferson mine, \$14,200 was shipped on the 14th, and \$12,370 from the Northern Belle mine on the 9th and 11th. Last week's production at the Chollar Potosi mine was 420 tons of ore, assaying \$28.50 per ton.

Edward Barron has resigned the office of President of the California and Consolidated Virginia mines.

The rain storm continues in a mild way. During the forty-eight hours ending 8 o'clock this morning one-third of an inch of water fell, making the total fall for the season 1.43 inches. The barometer has been steadily rising since yesterday, and at noon the thermometer indicated 57 deg. The greatest degree of cold reached during the past twenty-four hours was 32.

Thomas Tennant makes the following note on his meteorological record: 14th. Sharp earthquake at 7:52 p. m. Two vibrations, lasting six seconds. Direction, Southeast and Northwest.

The body of another of the Pacific's passengers found.

PORT TOWNSEND, W. T., Nov. 13.—The steamer Goliath has just arrived from the Cape, bringing another of the bodies lost on the Pacific. This body was found floating twelve miles West of Race Rocks, and five miles South of Vancouver, mid channel. It is that of a woman, apparently about 30 or 35 years of age, five feet 4 inches in height, full face, round regular features, and black hair, wearing a plush cape of imitation seal skin, with black fringe one and one-half inches wide and a number 4 brook. She had on 3 rings, one marked "O. H." It had apparently been out on one of its edge recently. Another ring was thinner and also had the appearance of being out. The ear-rings were of gold and enameled with four pearls, set in diamond shape. The body will be interred in the Masonic burying ground. The revenue cutter Wolcott, after the brilliant service already noted, has again been dispatched by Collector Webster, to the scene of the Pacific disaster, though the hope of ever recovering any more of the dead bodies seems a forlorn one. The officers are working out before returning will examine the Washington Territory shore and make inquiry among all the Indians residing in the vicinity.

MORNING DISPATCHES

1 A. M.
[SPECIAL TO THE HERALD.]

EASTERN NEWS.

Federal Appointments.—Third Term. WASHINGTON, November 15th.—The President has appointed Hindix Kopp to be U. S. Consul at Bogota, in the United States of Colombia, and has signed the commission of Thos. C. Woodward, of Iowa, to be Examiner-in-Chief in the Patent Office.

Of the reported interview with Col. Meigs in regard to the third term, which had been severely criticised by the Press generally, it is denied by Meigs. He says he has never expressed his opinion on that subject.

Condition of the Vice President. WASHINGTON, Nov. 15th.—Vice President Wilson is so much improved in health that his attendants believe he will be able to start for his home in Massachusetts within a few days.

Olegrario in Washington. WASHINGTON, Nov. 15th.—Olegrario, chief of the Temecula Indians, of

Southern California, arrived here this morning, accompanied by an interpreter, and had an interview with Secretary Chandler. He asks immediate relief for his band, some 500 in number, who have recently been turned out homeless by the Sheriff on a writ of ejectment, and also that some secure provision be made for the rest of the civilized Mission Indians, who are living on lands to which other persons hold legal titles. Secretary Chandler expressed much interest for the band, but explained that the matter will mainly require action before Congress. The Commissioner of Indian Affairs will also endeavor to obtain Olegrario an interview with the President.

European War Rumors. New York, November 15th.—The Graphic's Washington special says private telegrams received at the various legations there are to the effect that a war of enormous magnitude is almost certain to break out in Europe during the present year. The arbitration of Russia and Germany is at the bottom of the trouble. England will probably find herself compelled to seize Egypt in order to protect her enormous traffic through the Suez Canal.

FOREIGN.

The Sculling Contest.

LONDON, Nov. 15th.—The sculling match for the championship of the Thames and four hundred pounds sterling, between Joseph Sadler and Robert Watson, came off this morning on the Thames. The course was from Putney to Mortlake. Considerable interest was taken in the contest, and a large crowd assembled to witness the struggle. Sadler won the race easily.

Empty Houses and a Snow Storm. TORONTO, November 14th.—The Sun says there are over 1,400 houses to let in the city at present.

A terrible wind and rain and snow storm commenced this morning. Snow fell to the depth of over a foot, and reports from the Western parts of Canada show that the snow has been general, and Winter has probably set in.

Fog and Ministers. DUBLIN, November 15th.—A dense fog enveloped the city to-day, rendering locomotion dangerous and seriously interfering with general business.

A convention of ministers has been called to meet in this city on the 22d inst. to sustain the religious movement inaugurated by Moody and Sankey.

CONDENSED TELEGRAMS.

It is understood that the prosecution against the Count Von Arnim is about to be re-opened in consequence of the recent publication of the pamphlet calumniating the Emperor and Empress.

Mr. Griswold, a well known New York merchant, whose mysterious disappearance caused great apprehension of foul play, has been heard from. He is quite well and is visiting a daughter out of the city.

The Herald's special cable from Queenstown says that Cardinal Cullen sailed from that port on the steamer Abyssinia for New York. An address from the clergy and laity of Cork and vicinity was presented to the Cardinal, who made a suitable reply. Numerous bands accompanied the steamer, playing American and Irish tunes. A harbor galley decorated, and bands bearing hundreds who wished the American Cardinal adieu, crowded the harbor. The shore was crowded with enthusiastic admirers to watch the departure of the Cardinal.

A Livermore dispatch dated the 14th inst. says there were two very heavy shocks of earthquake, accompanied by rumbling noises, at 7:56 last night. The motion was from East to West, causing a general stampede from the houses, many running out in their night clothes. No damage reported. It has been raining for the past forty-eight hours. Over an inch and a half has fallen this month.

The British ship Astrea, from London for the United States, has been lost off Andros, near Antigua, B. W. I. None of her crew were drowned.

A London dispatch dated yesterday says heavy weather continues, and Lloyd's to-day reports a number of wrecks.

A heavy rise has occurred on the river Thames, and considerable damage is reported. The Thames tunnel is flooded, and all traffic from the railroad running between Blackwell and London is suspended.

Homicide at Healdsburg.

[From the Santa Rosa Democrat.] You remember Bird Brumfield, who killed Strong in Santa Rosa, about seven years ago, stabbing him sixteen times, literally cutting him to pieces? He attempted to shoot Willie Zane of this city, about six months ago, having borrowed Zane's own pistol to do it with. Zane sent word to Brumfield to keep away from his saloon as he was afraid of Brumfield. To-day Bird came to town, imbibed some whiskey and went round to Zane's saloon about five o'clock. Zane saw him entering. Both drew pistols, and three shots were fired. Bird received a bullet in his breast, about two and a half or three inches above the heart, and expired in a few minutes; only one shot took effect. The affair has caused considerable excitement, but the general feeling is that Zane was perfectly justifiable in his act. The saloon was locked immediately after the shooting. Zane has surrendered himself to Sheriff Latapie. A Coroner's Jury returned a verdict justifying Zane and he was discharged.

The Area of the State.

Surveyor General Gardner, in his biennial report just issued, says in his opening sentence: The area of the State of California, according to careful estimates made since my last report, is one hundred million five hundred thousand acres; and I call your attention to the following statement, showing the recognized sub divisions of such area: Public lands, 88,238,759; mining claims (surveyed) 62,843; private

grants, surveyed before June 30, 1875, \$3,155,690; mission church property, 40,707; Pueblo lands, 201,885; private lands (unsurveyed) 70,000; Indian and military reservations, 212,718; lakes, islands, bays and navigable rivers, 1,631,700; swamp and overflowed lands, 1,720,751; salt marsh and tide lands around Humboldt Bay, 5,000. Total acres, 100,590,000.

Prof. Havell gave a most interesting lecture last evening before the Teachers' Institute at Good Templar hall on "The Influence of Music on the Human mind; Its Beneficial Effects Morally, Socially and Nationally Considered." The lecture was interspersed with songs, scenes, etc. All were well rendered. The "Ship on Fire" deserved more than a passing notice as a masterpiece of vocalization and dramatic effect.

Dr. Aborn, Backman House; office hours, 9 A. M. to 7:30 P. M. No charge for consultation. Medicines, inhalers or other appliances, as each individual case may require, furnished by the Doctor without extra charge. Terms of treatment made within the reach of all who need his aid.

Testimonial

To the Skill of Prof. J. N. Cunningham, M. D. Cure of Heart Disease. I hereby certify that Dr. J. N. Cunningham, of this city, has cured me of a dangerous disease of the heart. I was so bad by times that my family and friends thought I could not live. I had received treatment from other skillful physicians, but without much benefit. I placed myself before the public, that others may be relieved by knowing full well that the Doctor has saved my life. To find me call at San Pedro and Los Angeles. J. F. WILLSON, Los Angeles, Cal., Nov. 12th, 1875. 141m

Another Testimonial. Cure of Palsy.

I hereby certify that I have been cured of Palsy of my face, Mouth and Eye by Prof. J. N. Cunningham, M. D. My eye and mouth were fearfully distorted and out of all shape. I had constant and severe pain in my head, for which I could get no help, though I received treatment from some of the best physicians of this city. I was then advised to go to the Hot Springs. I went, but got no better. I place myself before the public, that others may be relieved by knowing full well that the Doctor has saved my life. To find me call at San Pedro and Los Angeles. GOLD REPORT. SAN FRANCISCO, Nov. 15. Gold, 144 1/2. Greenbacks—Buying, 86; selling, 87.

LOCAL BREVITIES.

Mr. B. H. Twombly of Compton, is attending the Teachers' Institute.

Did you feel the earthquake yesterday? Grass is growing finely after the recent rains.

Telegrams for F. M. Covort and D. Ketter at the Western Union office.

Mr. C. Wells of Wells, Fargo & Co. is at the Backman House.

Judge Willis of San Bernardino, was in the city yesterday.

Bishop Kavanagh is in the city, a guest of the Kimball Mansion.

Gold closed yesterday afternoon at 114 1/2 per cent. premium. Currency sold here at 86 1/2.

Earthquake shocks were felt at San Bernardino, Wilmington, Anaheim, Spadra and Colton yesterday.

The steamer Ancon will arrive at Wilmington 10 days with 105 passengers from San Francisco.

The Temperance meeting on Sunday evening was well attended, notwithstanding the bad weather.

The New Italy will be issued tomorrow. It is a rich and interesting number.

The rain prevented a large attendance at Washington Gardens Sunday.

Mr. Chapman of Panamint, is in the city. He reports mining matters prosperous up in Inyo county.

The steamer Mohongo left yesterday with twenty-six passengers for San Francisco.

The new Postoffice sign is a thing of beauty. The artists are Mills & Snyder, No. 100 Spring street. It is carved in the wood and then gilded.

Nasal catarrh, deafness, ear, eye and lungs, asthma, bronchitis successfully treated by Dr. Aborn at the Backman house.

Col. R. C. Hopkins, of the Surveyor General's Office, arrived in the city yesterday and is the guest of Don Mateo Keller.

Mr. Searge's pacer, arrived on the Mohongo with Captain George A. Johnson's bay stallion Regent and two and three year old fillies.

Attention is directed to the advertisement "For sale at a bargain." Five hundred dollars will purchase a good paying business.

There was no evening service on Sunday at the Episcopal church on account of the indisposition of Rev. W. H. Hill.

The L. A. & Railway track will be at the San Pedro street depot by the end of this week. The first train will run to the Fair next week.

Deputy County Clerk Owen, has returned to duty, much to the delight of the community in general and reporters in particular.

Old cases of granulated lids, specks, films, opacities of the cornea, weak, sore or inflamed eyes are speedily cured by Dr. Aborn, even after they have resisted other treatment.

Mr. A. B. Johnson has discovered a silver ledge of great richness within twenty miles of this city. It is estimated to contain 550 silver to the ton, a little copper and ten per cent. of lead.

Consumption curable by the system of medical inhalation, combined with his local and constitutional treatment as adopted by Dr. Aborn now at the Backman House.

Rev. Jose M. de Jesus Gonzales, who died recently of paralysis was over 72 years of age and had occupied many prominent clerical positions since 1827.

In the case of Abila vs. Abila a rehearing has been granted by the Supreme Court, and the case stands for argument next term. This case involves the title to the Tajauta ranch.

Mr. Whitcomb, on his return from the Charlotte mine, will go down to San Rafael, Lower California, to examine the Minerva, Trinidad and Preb- lodes.

The rain gauge at Mr. O. H. Bliss' house on Alameda street reached ninety-five hundredths of an inch fall on Saturday night and Sunday morning.

A very perceptible shock of an earthquake was felt in this city yesterday at 2:30 P. M. Clocks in the jewelry stores stopped, and many of our citizens rushed into the streets thinking Gabriel was about blowing his horn.

Mr. Sam. Rothschild, father of Mr. J. M. Rothschild, the popular attorney, is about to open a branch of the San Francisco Golden Rule Bazaar on Los Angeles street, between Aliso and Commercial streets.

There is a pool of stagnant water in the gutter on the West side of Spring street, between First and Second, which should be removed, as it seriously endangers the health of the neighborhood.

Among the shipments yesterday were 3 bales of wool from Hellman, Haas & Co.; 70 sacks of meal, from Aliso Mills; and 50 sacks of corn, from Hellman, Haas & Co.; and a large amount of way freight.

The Goodenough horse shoeing establishment has changed hands. Mr. S. White being now the manager, Judge Storer having retired. We wish the new firm every success under its present able management.

The many friends of Miss Mollie Binford will be glad to know that she has almost entirely recovered from her long indisposition and will soon be among them as bright and happy as of yore.

Mr. Berry has a letter in which the writer expresses a wish to come to Los Angeles but for the frequency of earthquakes. We can assure him that the shake of an earthquake is lighter here than the shake of fever and ague down East.

THE RAILROAD CONTRACTORS.

The railroad company are now the mail contractors from Los Angeles to Anaheim, and have changed their schedule to better accommodate the traveling public. The mails from and after this date will leave Los Angeles at 4:15 P. M. and arrive at 8:40 A. M.

The people want the Council to do immediately certain things. First, light the street lamps with gas; Second, open Los Angeles street; Third, correct their mistakes in grading so that lakes will not form in our principal thoroughfares.

Eye diseases—Dr. Aborn at the Backman House would respectfully invite all who are affected with any disease of the eye to call for a free consultation. During his sixteen years of practice he has not injured or lost an eye.

Mr. Ducommun's rain gauge registered a fall of one inch and eight hundredths in the last shower. Mr. Bliss' rain gauge marked ninety-five hundredths of an inch. The discrepancy may be accounted for by location and elevation.

The Turn-Verein Germania will give a grand performance next Thursday night at their hall. A beautiful domestic drama and a sparkling comedietta will be given with all the strength of the dramatic section of the Turn-Verein. After the performance there will be a grand ball.

Mr. A. Georgini, of San Francisco, an extensive dealer in tropical fruits, and California wines, is at the Pico House. Mr. Georgini is an old pioneer of this State, has a large investment at Cucamonga ranch, and is otherwise interested in the development of this section. He will remain in the city some time.

The earthquake yesterday stopped clocks in jewelry stores, and now every one of those blithesome old fellows goes home late and forgets to wind his watch he will explain to his wife that there was a slight earthquake shock. But it will not do. Men who have been seen on the step trying to wind a watch until they are weary must not play the earthquake dodge.

We had the pleasure of meeting yesterday, Wm. Jacobs, of the firm of A. Lusk & Co. San Francisco, wholesale fruit dealers, who is here making contracts for the orange crop. His firm has shipped East lately 1000 tons of pears and 100 cars of apples. He is enjoying the hospitality of Messrs. Swales & Cuyas, at the Pico House, and will remain a week.

Pete Thompson had considerable fun on Sunday morning fishing in the lake in front of his saloon on Main street. We understand he hooked seven eel eels, a majority of the board, and stowed them away in a quart tin kettle, such as fishermen generally carry for their fish.

Pete has heard no inquiry for them since Pete fished them out of the hole in the street, so we presume they are not missed.

Dr. Aborn is not permanently located in Los Angeles. For the past six years he has been located in San Francisco, where his extraordinary cures have attracted the greatest attention. The most prominent and influential men of the Nation have applied to Dr. Aborn for the treatment of some obstinate chronic disease, and obtained a cure after the general methods of treatment had failed, and for the benefit of their fellow sufferers have willingly given their cards to the public. Dr. Aborn will remain in Los Angeles for a short time. Those who wish his services should call without delay, even after they have resisted other treatment.

Mr. A. B. Johnson has discovered a silver ledge of great richness within twenty miles of this city. It is estimated to contain 550 silver to the ton, a little copper and ten per cent. of lead.

Consumption curable by the system of medical inhalation, combined with his local and constitutional treatment as adopted by Dr. Aborn now at the Backman House.

THE ENTERPRISING FIRM OF KEVATIE.

Bettis & Co., Collectors of the Mercantile Collection Agency, on account of the rapid growth of business, have found it necessary to remove to a more central location and have accordingly taken the large and elegant apartments, No. 9 Main street, over the Commercial Bank. Evidently their motto is "Excelsior."

Dr. Aborn has Returned.

Dr. Aborn hereby informs his patients and those who need his services that he has returned to Los Angeles, and taken apartments at the Backman House where he can be consulted for a short time upon all diseases of the eye, ear, head, throat, lungs and derangements of the nervous system etc.
